

WARRANTY CONDITIONS FOR PROFILES AND SEALS **MADE AND SOLD BY KABAT TYRE IN BUDZYŃ**

I. PROFILES AND SEALS COVERED BY WARRANTY:

The warranty covers all profiles and seals manufactured and sold by Kabat, provided they are used for their intended purpose, i.e., sealing components declared by the Manufacturer.

The warranty does not cover profiles and seals that have been repaired or show visible signs of repair.

II. SCOPE OF THE WARRANTY:

If any profile or seal covered by this warranty becomes unusable, to the extent verifiable by the manufacturer, it will be replaced with a new product of equivalent properties.

Defects covered by the warranty include breaks in the rubber caused by a manufacturing defect, dimensional nonconformity, shape nonconformity, product line nonconformity, or other defects affecting the product's functionality that result from the manufacturing process, as well as latent defects discovered during the warranty period.

Here are a few examples of causes or conditions beyond the manufacturer's control and which it cannot take into account:

- Loss of product functionality caused by improper storage
- Loss of product functionality caused by improper installation
- Other instances of improper care or use of the product

The causes and conditions listed above constitute grounds for rejecting the user's warranty claims. Kabat reserves the right to inspect the product subject to a warranty claim.

Check the profile/seal before installation. A defective or damaged product must not be installed, under penalty of voiding the warranty.

III. WARRANTY PERIOD:

Kabat profiles and seals are covered by a two-year (24-month) warranty from the date of sale, but no longer than 36 months from the date of manufacture.

Under the warranty, Kabat will refund the cost of the profile or seal or replace the product with one free of defects.

Limitations:

- Does not cover the cost of replacing a damaged seal or profile
- Does not cover overtime, weekend work, or vacation pay related to service and replacement
- Does not cover any other damage.

IV. OWNER/USER RESPONSIBILITIES:

The owner/user is responsible for the proper installation of the profile/seal in accordance with its intended use.

For a warranty claim to be considered, the owner/user must present the profile/seal, submit a completed WARRANTY CLAIM FORM, and deliver them to Kabat. Kabat reserves the right to inspect the profile or seal subject to the complaint based on a photograph or, upon request, to have the product physically delivered to Kabat. A photograph of the damaged profile or seal must clearly show the damaged area, dimensions, and identification number (if applicable).

Other methods of filing a complaint are permitted only upon prior agreement between the parties involved.
